

Ideation Phase – Brainstorming

Team ID	PNT2022TMID21590
Project Name	Plasma Donor Application

Brainstorm & idea prioritization

Use this template to brainstorm and prioritize ideas for your project. It includes a section for brainstorming ideas and a section for prioritizing them based on importance and feasibility.

- Brainstorming: A section for generating ideas, including a list of prompts and a space for notes.
- Prioritization: A section for evaluating ideas based on importance and feasibility, using a 2x2 matrix.

Before you collaborate

1. Brainstorming: A section for generating ideas, including a list of prompts and a space for notes.

2. Prioritization: A section for evaluating ideas based on importance and feasibility, using a 2x2 matrix.

Define your problem statement

1. Problem Statement: A section for defining the problem, including a list of prompts and a space for notes.

2. Solution Statement: A section for defining the solution, including a list of prompts and a space for notes.

Brainstorm

1. Brainstorming: A section for generating ideas, including a list of prompts and a space for notes.

2. Prioritization: A section for evaluating ideas based on importance and feasibility, using a 2x2 matrix.

Group ideas

1. Grouping: A section for grouping ideas, including a list of prompts and a space for notes.

2. Prioritization: A section for evaluating ideas based on importance and feasibility, using a 2x2 matrix.

Prioritize

1. Prioritization: A section for evaluating ideas based on importance and feasibility, using a 2x2 matrix.

2. Grouping: A section for grouping ideas, including a list of prompts and a space for notes.

After you collaborate

1. Grouping: A section for grouping ideas, including a list of prompts and a space for notes.

2. Prioritization: A section for evaluating ideas based on importance and feasibility, using a 2x2 matrix.
